

Users are having trouble with:

Getting to
class on
time

**Poor
sleep
habits**

Knowing
which
Assignments
are due

Getting
stuck in
traffic

Not having
lunch or
breakfast on
time

**Waking
up**

Poor
grades/not
studying or
reading
enough.

time
management

We can fix this with features like:

by sending
reminder to
users about
remaining
time of class

Having traffic
alerts and
when to leave
alarms

Guide

set clear
expectations

Users can also
input their
assignments
and their due
date

**Shows the
users
class
schedule**

By sending
notifications about
upcoming shuttles
and other traffic
services.

by setting a
schedule that
allows the
user to have a
steady meal
schedule

Other features we can add to make it fun are:

Points system:
if the user is
on time they
get points
towards
awards

**Reward
early
arrivals.**

**Users can use
the
reward/points
for free
shuttle rides**
